the mark of excellence.**

**Save up to 50%
of the finishing process
on every job
with **the EDGE****

- Spend less time on your knees
- Reduced installation time
- Minimize future call backs
- Blind nail the last rows at the same 45° as the field
- Put an end to scuffing, damaging, patching and painting walls

**EXCLUSIVE
FROM
PRIMATECH**

- Perfect tool for**
- hallways • closets • end walls
 - railings • radius • cabinets
 - stair casings • jambs and trim
 - custom floors • bath fixture
 - appliances and much more

Developed with the "end-wall reach" in mind **"the EDGE"** will save you up to **50%** of the finishing process on every job. Spend less time on your knees, create a neater job-site, cut back on installation time and minimize future call backs.

"the EDGE" is designed to blind nail as close as 2" to the end-wall, at 45° with the same holding power as the field.

Used with the Edge nails this system is designed for most solid and engineered boards with a hard core. Constant pressure and tension throughout the work process provides a more uniform and professional installation.
